Hon. J. Gary Lane
Minister of Telephones

REGINA, Saskatchewan,
June 30, 1982.

TO HIS HONOUR

The Honourable C. Irwin McIntosh,

Lieutenant Governor of the Province of Saskatchewan.

Sir:

I have the honour to submit herewith, the report of the Department of Telephones covering the activities of the rural telephone systems in the province for the calendar year 1981.

I have the honour to be, Sir,

Your obedient servant,

J. Gary Lane,
Minister of Telephones.

A. L. M. Nelson
Deputy Minister of Telephones

REGINA, Saskatchewan,
June 30, 1982.

Honourable J. Gary Lane,
Minister of Telephones,
Regina, Saskatchewan.

Dear Sir:

I have the honour to submit herewith, the report of the Department of Telephones covering the activities of the rural telephone systems in the province for the calendar year 1981. The administration of the public telephone system is handled by Saskatchewan Telecommunications which made a report for the calendar year 1981 some time ago.

Respectfully submitted,

A. L. M. Nelson,
Deputy Minister.

1981 Report at a Glance

- Under the Voluntary Assimilation Program during 1981, 26 Rural Telephone Companies, with 1,392 subscribers joined SASK TEL making a total of 632 companies with over 44,600 subscribers assimilated in the five years of the program.

- Of the 82 operating companies, 26 have passed resolutions to join SASK TEL.

- Rural telephone company spending totalled $331,451 down 36% from the previous year.

- Rural telephone companies buried 41 route kilometers (25 miles) of wire and cable in 1981.

- Grants of $18,140 were paid to rural companies by SASK TEL, $11,237 in the form of Circuit Grants for buried cable and $6,903 for Maintenance Grants.

Administration

Rural telephone companies historically were responsible for providing telephone service to Saskatchewans' farming population. During the last 12 years, 713 companies have voluntarily given the responsibility for their serving area to SASK TEL. Less than 8% of the farms are now served by Rural Companies.

Under Section 5 of The Telephone Department Act, SASK TEL administers The Rural Telephone Act and gives advice and guidance to rural companies for constructing and maintaining their plant to approved standards.

During 1981 financial guidance and technical assistance was provided to rural companies by SASK TEL as well as administrative help in winding up the companies that have joined SASK TEL. Meetings were held with subscribers and boards of companies interested in joining SASK TEL under the Voluntary Assimilation Program.

Companies Assimilated During the Year - 1981

Company	Formerly Connecting at	Number of Subscribers	Assimilation Date
Balcarres North	Balcarres	5	January 4
Colgate	Tribune	14	June 7
Colonsay	Colonsay	98	October 19
Dodsland-Druid	Dodsland	81	August 4

Total 26 Companies		**1,392**	

Service to subscribers of the assimilated companies is now provided by SASK TEL.

Extensions to Plant

Rural telephone companies extended their plant to serve 45 new subscribers during 1981. As a result of SASK TEL's assimilation program this has steadily decreased from 706 new subscribers in 1976, 349 in 1977, 142 in 1978, 101 in 1979 to 77 in 1980.

Grants Program

In 1960, a program of grants was introduced providing funds to rural telephone companies that would assist and encourage them to upgrade the quality and reliability of the telephone service they provided to their subscribers.

Instrument Grant - 1960 to 1974

$989,483 was paid to provide dial operated telephones free of charge in exchange for the magneto telephones.

Pole Grant - 1960 to 1974

Approximately $1,700,000 was paid to assist in the purchase of over 700,000 treated poles.

Maintenance Grant - 1960 to present

An annual grant of $2.50 per subscriber is paid to rural companies who maintain their plant to approved standards.

The following table indicates the assistance provided by the Maintenance Grant since 1960:

Year	Number of Companies Receiving Grant	Number of Subscribers Served By These Companies	Amount of Grants Approved
1960	124	14,421	$ 17,190
1961	174	19,720	43,503
1962	226	22,926	81,305
1963	306	29,002	72,505
1964	426	35,973	89,932

1981	64	2,761	6,903*
			$ 1,767,020

* Paid by SASK TEL

Circuit Grant - 1965 to present

The circuit grant was started in 1965 when reliable cable became available and replaced pole line construction almost immediately. It reduced the number of above ground obstacles from an average of 25 poles per mile to an average of 2 pedestals per mile.

The average number of subscribers per line has also been reduced from over 8 in 1965 to just over 3 in 1981.

Service disruptions due to the weather and damage to overhead lines caused by vehicles with high loads has been eliminated.

The table below indicates the amount of financial assistance provided by the Circuit Grant since 1965:

Year	Number of Companies Receiving Grant	Route Kilo-meters	Route Miles	Circuit Kilo-meters	Circuit Miles	Amount of Grants Approved
1965	5	24	(15)	354	(220)	$ 725
1966	23	148	(92)	1,310	(814)	23,457
1967	53	417	(259)	3,146	(1,955)	56,264
1968	70	484	(301)	3,917	(2,434)	68,389

* Paid by SASK TEL

Operational Assistance to Rural Telephone Companies

There were 82 rural telephone companies still in operation at the beginning of 1981 and the department staff continued to offer technical advice and assistance as in the past.

13 rural companies placed 41 kilometers (25 miles) of buried underground facilities with the department generally arranging for the material, cable and providing supervisory help. SASK TEL provides the engineering at no charge.

27 general meetings were attended concerning assimilation, and over 100 board meetings were held with rural representatives to discuss cable projects and the Voluntary Assimilation Program.

An inspection of some of the plant of rural telephone companies was made for those companies applying for the maintenance grant. A report of the inspection was delivered to the secretary of each rural company. The annual financial report of each rural company was reviewed and recorded. Details from the statements are included in this report.

The Voluntary Assimilation Program

Responding to requests from rural telephone companies and the Association of Rural Telephone Companies, SASK TEL, in 1976, announced two new programs.

The Voluntary Assimilation Program which would allow any rural telephone company to voluntarily give the responsibility for providing telephone service in their area to SASK TEL, and the Rural Service Improvement Program which essentially provided for all rural telephone plant in the province to be buried with no more than 4 subscribers per circuit.

In the 10 years prior to 1976, SASK TEL's Unserved Area Program assisted rural companies greatly by burying cables to pockets of farmers situated beyond the rural company serving area, allowing rural companies along the cable routes to rent cable pairs or in some instances to join SASK TEL. Over 100 rural companies joined SASK TEL during that period with 622 companies joining SASK TEL in the last 5 years.

The following indicates rural companies assimilated in the past by SASK TEL:

Year	Number of Companies	Number of Subscribers
1967	1	5
1968	8	96
1969	2	25
1970	-	-
1971	8	225
1972	-	-
1973	8	528
1974	22	677
1975	27	715
1976	29	1,570
1977	460	33,603
1978	69	4,545
1979	32	3,041
1980	35	2,059
1981	26	1,392

At year end 26 rural companies had passed the necessary resolutions to be assimilated. Of the remaining 56 companies, 39 have their facilities totally buried and are providing a good level of service to their subscribers.

SASK TEL, during the last 5 years, has hired over 50 former linemen of rural telephone companies, fulfilling one of the commitments made in 1976.

The program is voluntary and is open to all rural telephone companies to apply for assimilation, which requires a 60 percent affirmative majority of the votes cast at a special meeting of the rural telephone company.

Rural Service Improvement Program

Benefits

- Reduction in the Number of Subscribers on a Circuit - SASK TEL will re-design, and where necessary re-build, rural facilities initially to provide for not more than four subscribers per circuit.

- Reduced Service Interruption - All circuits will be buried reducing service disruptions due to weather disturbances.

- Regular Maintenance - SASK TEL employees will have end to end responsibility for rural facilities.

- Common Rate Schedule - SASK TEL's rate schedule for rural subscribers will apply. The "Special Levy Tax", where it now applies, will be discontinued.

- Individual Line Service - Private lines will be available to rural subscribers, subject to additional charges.

- New Subscribers - When re-designing the circuits, SASK TEL will make provision for the inclusion of residents of the area who are without service.

Conditions

- Existing rural company subscribers will be provided with multi-party line service without a service connection charge.

- Individual line service, if requested at the time of canvassing, will be available to existing rural subscribers at standard SASK TEL tariff rates plus construction charges, less a credit of up to $400.

- New subscribers will be required to pay up to $400 connection charge for multi-party service.* New subscribers for individual line service will be required to pay standard SASK TEL tariff rates and construction charges.

- SASK TEL will assume all liabilities and assets of a rural telephone company that is assimilated. This includes all telephone sets, poles and cable.

- Easements are to be provided to SASK TEL at no charge.

* Effective January 1, 1982, the connection charge for multi-party service is reduced to $100.00.

Financial Activities of Rural Telephone Companies

Authorization to regulate the operation of rural telephone companies by the Department of Telephones is provided under The Telephone Department Act. In practice the major area of regulation is the control of funds raised by the telephone tax. Spending of tax proceeds must receive the approval of the Department.

The following table shows the number of companies using special levy funds and the special account receipts and expenditures for each of the last 10 years.

Year	Number of Companies	Special Account Proceeds	Amount Expended
1972	576	$ 2,272,756	$ 2,195,752
1973	540	3,029,865	2,884,522
1974	511	3,436,179	3,320,900
1975	496	4,698,701	4,617,941
1976	505	5,325,494	5,242,792
1977	135	1,136,952	1,259,317
1978	86	641,899	689,592
1979	70	351,230	350,456
1980	48	200,708	274,766
1981	34	104,909	132,410
		$ 21,198,693	$ 20,968,448

Under Section 35 of The Rural Telephone Act, rural telephone companies may elect to exempt from telephone tax, any parcel that is not a run-off parcel. At year end, 40 companies were operating under this practice.

Special Account funds in banks or credit unions at December 31, 1981 was $ 81,150.00. This is a decrease of $ 20,022.00 from last year.

Debentures

Total Debentures Issued (Since Incorporation)	$ 20,420,153
Less: Debentures of Companies Dissolved	$ 19,164,959
Debentures Issued (Current Operating Companies) as at December 31, 1981	$ 1,255,194
Amount of Debenture Principal Unpaid as at December 31, 1981	$ 0

Short-Term Loans

Short-Term Loan Authorized	$ 6,301,334
Less: Short-Term Loans of Companies Dissolved	$ 5,681,559
Short-Term Loans Authorized (Current Operating Companies) as at December 31, 1981	$ 619,775
Total Loan Principal Unpaid as at December 31, 1981	$ 4,000
